

MCITY ACCESS AND AUXILIARY SERVICES AGREEMENT

This Mcity Access and Auxiliary Services Agreement (the "Agreement") is made effective as of _____, 2020 (the "Effective Date") between The Regents of the University of Michigan, a Michigan constitutional corporation ("University"), located in Ann Arbor, Michigan, USA, 48109 and _____ ("User"), a _____ corporation with offices at _____.

A. University has a fenced-in facility located at its North Campus Research Complex, Ann Arbor, Michigan suitable for testing of wirelessly connected and autonomously controlled motor vehicles ("Mcity") along with certain storage facilities and administrative facilities (collectively, including Mcity, the "Premises").

B. User desires use of some or all of these Premises for purposes of testing autonomously controlled motor vehicles and related technology.

In consideration of University granting permission to schedule use of certain of its facilities on the Premises, and the mutual promises stated below, University and User agree as follows:

1.0 Access and Auxiliary Services Use.

1.1 Access.

University will provide User access to designated Mcity areas on the Premises for general vehicle testing (the "Access") subject to the limitations and conditions of this Agreement. User's testing hours and locations must be scheduled and approved in advance by the facility management staff. Requests for Access beyond the standard hours of 8 am to 5 pm, Monday thru Friday or Saturday and Sunday may be approved on a weekly basis. User must be on site, ready to proceed within one hour of the scheduled start time for any reserved session and if not, forfeits Access for the balance of the scheduled session. Approved test hours and the surfaces available for Access may vary from test to test based on facility scheduled events. User will be responsible for additional charges related to User scheduled support overtime per Attachment A. When appropriate space is available, User's personal property ("Equipment") required for its testing may be stored overnight during active testing periods at a location(s) on the Premises designated by University ("User Temporary Storage"). All Equipment must be removed at User's expense within 24 hours of completion of the scheduled testing unless otherwise approved in writing in advance by the University.

1.2 Auxiliary Services and Equipment.

1.2.1 Auxiliary Services User will develop its own testing plans and provide qualified driver, fuel, oil, engineering, and garage services ("Auxiliary Services"). If use any of the mentioned Auxiliary Services are requested to be provided by University, including additional support by facility personnel, User must request in advance the services or support through facility staff. The fees for Auxiliary Services are provided in Attachment A.

1.2.2 Auxiliary Equipment User must bring and use its own equipment,

including scientific measuring and testing equipment. ("Auxiliary Equipment"). If use of any of the mentioned Auxiliary Equipment which are owned by University are requested, including additional support by facility personnel, User must request in advance the equipment through facility staff. The fees for Auxiliary Equipment are provided in Attachment A. For any University owned equipment User would be taking the equipment "as-is", with no guarantee that it serves User's purposes, even if known by the University. As a condition of the University providing User access to Auxiliary Equipment, prior to accepting any University owned equipment for use the User must inspect it and satisfy itself that the equipment is safe and suitable for User's purposes.

1.3 Scheduling.

User must submit all requests for Access and/or Auxiliary Services on forms provided by University. University will endeavor to promptly process all requests. Generally, University will not approve requests for Access or Auxiliary Services more than 1 month in advance. However, in the sole discretion of the University, requests for Access Use made more than a month in advance may be approved in whole or in part, subject to conditions as may be required by the University to allow flexibility for Mcity operations. University shall make reasonable efforts to meet User's timing requests for Access. However University may delay or refuse provision of Access for any reason. User's sole remedy for any delay or refusal to provide Access is the refund of any prepaid fees.

2.0 Fees and Payment.

Fees for Access and Auxiliary Services ("Fees") are set forth in Attachment A. The University shall propose a new Attachment A before October 1st of each year during the Term of the Agreement and User shall have fifteen (15) days to object in writing to the new proposed Fees and, if User objects, this Agreement shall terminate as of November 1st of that year. If User does not provide any such written objection, the new Fees shall take effect beginning November 1st of that year. Payments shall be made within thirty (30) days of receipt of University's invoice. In the event that User requests additional services not on Attachment A, the parties shall mutually agree upon an acceptable fee for the service prior to creating any obligation to provide or pay for the service. Typically, costs for other services will be posted on-site and, if a service is requested by User and provided by University, the posted cost is the fee. User shall be liable to pay for scheduled Access whether used or not, unless the Access is cancelled by University. The amount to be paid by User does not include any sales, use, value-added, excise or other taxes or duties all of which are User's sole responsibility. To the extent that University incurs any such taxes or duties arising out of User's activities, User shall immediately pay the imposed tax. If University has already paid the tax, User will immediately reimburse University for the tax plus 10%. If the University is notified by the User at least two business days in advance that User is cancelling an Access session, the University will make reasonable efforts to schedule another paying user who will use the cancelled session and if scheduled, reduce User's obligation to the University on a pro rata basis. Furthermore, in the event the University does not propose a new Attachment A before October 1st of that applicable calendar year of the Term, the Fees shall remain unchanged and the University shall not have the opportunity to adjust the Fees until the following October 1st.

3.0 Duration of Agreement.

This Agreement shall become effective and shall have a term (the "Term") beginning as the Effective Date and continuing until November 1, 2021. Thereafter, this Agreement shall automatically renew for up to three additional one year periods unless either party gives written notice of its decision to not renew at least 30 days prior to the end of the then current annual period.

User will be responsible for adequately insuring its Equipment against loss or damage, with the adequacy determined in User's sole discretion. User assumes all risks of dangerous conditions, if any, associated with the Access.

5.0 Environmental.

NOTE: With the exception of Workers' Compensation, the commercial general liability and business automobile liability listed above must name University as an additional insured under the policy(s), which may be met through a blanket additional insured basis.

The commercial general liability and business automobile liability insurance policies of the User shall be primary to, and will not be excess to or contributory with, any self-insurance or insurance policies carried by University. The User shall provide at least 30 days' prior written notice to University in the event of insurance cancellation or material alteration of the policy. User shall furnish to University an acceptable certificate of insurance evidencing the required coverage required. The furnishing of acceptable evidence of required coverage does not relieve User from any liability or obligation for which it is otherwise responsible to University.

User may substitute self-insurance or a captive insurer to meet these requirements, subject to University reasonable approval. Please provide a letter of self-insurance explaining the self-insurance mechanism. User may also use an umbrella policy to meet the limits required by this Attachment.

User shall require that its subcontractors procure and/or maintain insurance coverage at the limits described above. User shall be primarily and fully responsible for any cost to University regardless of any subcontractor's obtaining or failing to obtain and/or maintain the required insurance.
